

## COMMUNITY SUPPORT WORKER CASE DISCUSSION SESSION

This is an opportunity for volunteers from different agencies to come together and talk about the different challenges and approaches to supporting clients.

Volunteers will have the chance to discuss past interactions with clients (de-identified) and the challenges and learnings from these experiences.

Volunteers will be invited to share their ideas and knowledge about community support available to clients.

These sessions will provide a forum for volunteers to learn from each other and to identify and discuss challenges and ideas when working with vulnerable people.
