

Face-to-Face ice training.

Free training is now available for all Victorians who come into contact with ice-affected people as part of their job.

360Edge, Australia's leading expert consultants in alcohol and other drug responses, has been chosen to deliver half day face to face workshops to frontline workers across Victoria as part of the Victorian Government's \$45.5 million ice action plan 'Taking action, Stopping ice'.

The training is designed to build the knowledge and skills of frontline workers to respond safely and effectively to people affected by the drug ice. It will cover:

- Understand the effects of ice and identify users
- Find out how to work safely to protect themselves and others
- Learn how to respond effectively to ice-affected people
- Understand what works in treatment

This training is for anyone who may come in contact with people who use methamphetamine ('ice' or 'speed'). The training is optional and may be eligible for up to 4 hours of CPD points.

360Edge will be in **Darebin - Preston** to deliver training to the **Welfare** workforce.

Date: Wednesday 30th May 2018

Time: 9:30am – 12:30pm

Venue: Darebin-Preston Shire Hall
286 Gower St
Preston

Your presenter is **Sandra Simpson**

Sandra is Senior Training Consultant at 360Edge and our key trainer for statewide frontline worker ice training. A positive catalyst for frontline worker change, Sandra's skills and expertise in clinical practice, training and program development are unmissable.

She has a background in social work with 15 years experience in the field. She has extensive experience working in the areas of methamphetamine treatment, dual diagnosis and young people and their families.

Her experience across the sector has equipped her with an in-depth understanding of service delivery in the real world.

An experienced and engaging trainer, audiences love her warm and positive strengths-based approach to alcohol and other drug responses.

Authors of the training session

Professor Nicole Lee

International leader in alcohol and drug policy and practice, and well known for her expertise on Australia's methamphetamine problems.

Linda Jenner

Extensive experience in mental health and drug treatment and was the first ever CNC for Dual Diagnosis in the alcohol and other drug sector.

Paula Ross

A background in counselling psychology and family therapy. Highly sought after for professional development and mentoring of practitioners.
