

CISVic 2012 Honour Roll Inductees

Rosemary Good, Monash Oakleigh Community Support & Information Service

Rosemary has worked with Monash Oakleigh for over 15 years and during that time has served both the community and the organisation – giving generously of her time to assist disadvantaged and marginalised members of the community with great respect. Within the organisation she has served as Secretary, President, Tax Help Worker & Coordinator and Training Officer. Rosemary has also been a highly valued and respected trainer, working at best chance to deliver our 50-hour accredited training course – training countless volunteers during that time. She has also served on CISVic’s Training Sub Committee.

Mollie Warren, Westernport Community Support

Mollie was a founding member of the Western Port Community support service in 1979 and has been volunteering there ever since then. Mollie has served as President, Vice-President, Secretary, and ordinary member on the Committee of Management while actively working with the clients of the service. During the last 10 years she has extended her work with clients and become a Budget Support Worker. I can only imagine that over her 34 years she has provided information, advocacy and support to hundreds of clients. She is highly professional in her work and always willing to act in the best interests of the client.

Flo Stewart, Dandenong CAB

Flo’s involvement with the sector began with Sandringham CAB where she not only supported clients but became an accredited trainer and delivered high quality training to numerous volunteers. After moving to Dandenong in 1982, Flo commenced working with Dandenong CAB and as a skilled and respected team member for over 30 years she has been an interviewer who has always maintained a respectful and supportive attitude to the people she has worked with and her colleagues. During this time she also served on the Committee for 11 years. Flo has assisted hundreds of people in the community in many valuable ways which DCAB tell us are hard to measure and her input to both the agency’s and other local agencies has been beneficial to many. She has a strong sense of social justice and understands the difficulties people living in financial and emotional hardship experience, particularly for those who have recently arrived in Australia.
